

## Clinical Standards Committee

### The role of the Committee

The role of the Clinical Standards Committee is to provide information and guidance for both clinicians and patients on Orthodontics and related matters. The Committee is there to promote, assist and facilitate audit and clinical governance for the members of the BOS.

The Clinical Standards Committee is a subgroup of the Clinical Governance Committee.

The Clinical Standards Committee is responsible for:

- i. Production of clinical guidelines and advice documents on clinically related matters
- ii. Promotion of good practice in clinical audit and clinical governance
- iii. Allocation of awards from the Society's clinical audit budget and overseeing the progress of audit projects funded by the Society
- iv. Publication of the Clinical Effectiveness Bulletin
- v. Maintain archives of examples, guidance and previously published audit
- vi. Any other related activity allocated by the Board
