

An Introduction to Occlusal Indices March 2007

Monday 19th March 2007, 9am to 5pm

With advent of the new NHS orthodontic contract in April 2006, orthodontic treatment has been restricted to the more severe malocclusions as measured by the Index of Orthodontic Treatment Need (IOTN). Outcomes of treatment will also need to be measured by the Peer Assessment Rating (PAR). A working knowledge of both these indices is therefore essential for any practitioner involved in carrying out NHS orthodontic treatment.

This course offers an introduction to the use of these indices and is led by Nigel Fox who has lectured widely and published several papers on the subject.

Course presenters:

Nigel Fox, Consultant Orthodontist
Toby Gilgrass, Consultant Orthodontist
Dina Slater, FTTA in Orthodontics

Educational approval has been applied for.

Venue: BOS Headquarters, 12 Bridewell Place, London EC4V 6AP

Course fee £200 including course materials and refreshments

Bookings to Ann Wright, BOS Office, 12 Bridewell Place, London EC4V 6AP
