

## Web Editor

Mary Lo is the BOS Web Editor

The website is hosted by Cubik using a Microsoft Content Managing System platform. The initial work of writing and loading the content was done in December 2006 / January 2007 by my predecessor, Dr David Tidy. Thereafter keeping the site up-to-date depends heavily on contributions being received regularly from members, particularly secretaries of groups and committees.

Suggestions for improvements and offers of contributions are welcome.

Significant changes to the site are recorded in the website changelog.
