British Orthodontic Conference

14 - 16 September 2017
Welcome

I am delighted to announce that the 30th British Orthodontic Conference will take place in Manchester from 14 to 16 September 2017. This landmark occasion will feature a host of renowned international and UK speakers along with three full days of parallel programmes for the whole team and a record number of hands-on skill clinics.

This 30th BOC features the very apt theme “Back to the Future”. Many of our presenters will be reflecting on historic trends, discussing the very best evidence and clinical practice today, as well as looking ahead to the future.

Among the many sessions and themes within the main clinical programme are the Research session, presenting the latest exciting UK based research, as well as the Stability and Retention session discussing the latest evidence and best practice. The Great Digital Debate discusses the pros and cons of the digital revolution. Other themes covered include management of impacted teeth, orthodontic finishing, lingual orthodontics, Invisalign treatment, TADs, ortho-perio treatment and orthognathic surgery among many others. The NHS Commissioning session will cover all the latest news surrounding commissioning and provision of NHS orthodontic care in primary and secondary care and is a “must see” session.

Once again, alongside the main programme, we will be running the BOC Practice Development Day. This popular day covers a range of business, leadership and development skills for the entire orthodontic team. The Orthodontic National Group will also be running a full two-day programme for nurses and therapists.

This year we have a record six different hands-on skill clinics. These sessions always sell out quickly so book early to avoid disappointment.

Our pre-conference course this year will be an IR(ME)R course in dental radiology and radiation protection delivered by Dr Eric Whaites.

No BOC would be complete without an ambitious social programme. Brighton witnessed some fantastic events and we have raised the bar even higher in Manchester. The magnificent gothic inspired Manchester Town Hall will play host to the “Rock Me Amadeus” themed Gala reception and the conference social highlight will be the “Black and White Masquerade Ball” at the Midland Hotel.

Please note that this year the “early bird” period ends at the end of June, much earlier than in previous years, so book your place as soon as you can. On behalf of the conference team, I look forward to welcoming you and your team to Manchester for a fantastic 30th British Orthodontic Conference.

Richard Jones
BOC Conference Chairman 2017
Director of Professional Development
Conference Information

Venue
Manchester Central Convention Complex
Windmill Street Manchester M2 3GX
Located in the heart of Manchester city centre, the instantly recognisable vaulted arches and station clock have made Manchester Central an iconic feature of the city’s skyline for almost 130 years. Following the completion of a £30m redevelopment, Manchester Central combines historic architecture with state-of-the-art facilities, making a truly unique venue.
Step outside the venue, and you’re in the heart of vibrant Manchester City Centre with its world-class restaurants, bars, shopping and entertainment, as well as over 2,500 hotel rooms.

Accommodation
The conference hotel is the Midland Hotel, Peter Street, Manchester, M60 2DS, located opposite the conference centre. The Midland has 312 bedrooms and hotel guests have complimentary access to the gym, poolside and thermal area during their stay. Bookings for this hotel can only be made via the BOS office; other accommodation can be booked through Visit Manchester. Please see the relevant forms in the registration pack.

Travel
By Air
Manchester Airport is a major international hub just nine miles (14.5km) from the city centre. It serves more than 200 destinations worldwide including direct routes to nine US cities. From the airport, the city is approximately 25 minutes away by taxi or just 20 minutes via the half-hourly express rail service (tickets £5.00 - £7.20).
Information on Manchester Airport can be found at www.manchesterairport.co.uk

By rail
It takes a little over two hours to reach Manchester from London and Manchester also has direct connections to most major UK cities. Services arrive at Piccadilly or Victoria stations where passengers can connect with Metrolink trams for easy access to the city centre. Manchester Central is a 20 minute walk from Piccadilly Station or just five minutes by taxi. Alternatively, catch a connecting train to Oxford Road Station - just five minutes from Manchester Central on foot. Information on train services can be found at: www.virgintrains.co.uk and www.nationalrail.co.uk

By road
Manchester is at the heart of a comprehensive motorway network. Manchester’s M60 orbital motorway provides easy access from north, south, east and west.
For more information on how to find Manchester Central Convention Complex, please visit: http://www.manchestercentral.co.uk/getting-here
Parking is available at Manchester Central’s on-site NCP car park which is open 24 hours. There is a discounted rate of £12.00 for 24 hours which is for pre-booked vehicles and allows a vehicle to enter and exit the car park once. The pre-booked rate only applies if you leave your car for the whole day. If you want to take your car out each day, to get the discounted rate, you will need to pre-book each day separately on the website. The maximum height of vehicles for the Manchester Central NCP is 1.98m. The NCP Manchester Central discount code is EXHIBMC
If you would like to take advantage of this discount and book, please visit their website: https://www.ncp.co.uk/find-a-car-park/car-parks/manchester-central-under-jv/
If using a satellite navigation system - please follow the postcode M2 3GX.
Pre-Conference Course

Pre-conference course - Wednesday 13 September 2017 - Manchester Central
Registration 8.30 a.m. Programme 9.30 to 5.00 - timing subject to confirmation

Justification, Optimisation and Limitation
- an IR(ME)R course in dental radiography and radiation protection
Presented by Dr Eric Whaites

5 hours CPD – fulfils GDC requirement for core CPD five year cycle and IR(ME)R Core of Knowledge

Suitable for the whole dental team

Course aims:
- Understand the principles of radiation physics
- Know the risks of ionising radiation and the principles of radiation protection in dental radiology
- Know the radiation doses in dental radiology and the factors affecting radiation dose
- Understand the principles of a Quality Assurance programme
- Understand the use of selection criteria in relation to dental radiography with particular reference to orthodontics
- Know the changes to the legislation concerning dental radiology and be aware of their statutory responsibilities
- Understand the various imaging modalities available, including 2D and 3D (CBCT) digital imaging, and the various factors that affect diagnostic yield
- Have revised radiological interpretation of normal anatomy and a range of pathological conditions potentially presenting in orthodontics

Dr Eric Whaites is currently a Senior lecturer/Honorary Consultant at King’s College London Dental Institute, based at Guy’s Hospital, London.

Eric qualified from Guy’s Hospital Dental School, London in 1978 and joined the staff of the Dental School in 1981. Current appointments include: Head of the Department of Dental and Maxillofacial Radiological Imaging (since 1988); Clinical Director of Guy’s & St Thomas’ Dental Hospital (since 2010), member of the Dental Defence Union’s Dental Advisory Committee and member of the Dental and Maxillofacial Radiology Examining Board of the Royal College of Radiologists. He is a former President of the British Society of Dental and MaxilloFacial Radiology (BSDMFR) and former President of the European Academy of Dental and MaxilloFacial Radiology (EADMFR). Eric is a national and international lecturer and co-author of two textbooks - ‘Essentials of Dental Radiography and Radiology’ 5Ed and ‘Radiography and Radiology for Dental Care Professionals’ 3Ed - both published by Elsevier in 2013 and co-author of the British Orthodontic Society’s ‘Orthodontic radiographs – Guidelines’ 4th Ed 2015.
Thursday 14 September

**Morning**

Welcome  
Richard Jones, BOC Chairman  
Welcome to the 30th BOC - "Back...To the Future"

UTG session  
10 short presentations

Research Session  
Chapman prize 2017  
Professor Tony Ireland  
Chewing gum and orthodontic pain

Junior academic presentations  
Julie Williams - Bristol  
Reflection- the process or the outcome? How measurement matters

Sarah Bell - Sheffield  
Exploring young people’s perspectives of fixed orthodontic treatment

Jennifer Galloway - Cardiff  
Identifying differences in facial shapes in four population groups

**Afternoon**

Nigel Harradine  
40 years in Orthodontics - what has changed

Chris Chang  
Simplified mechanics for impacted teeth

Stability and Retention Session - Past, present and future  
Professor Sabine Ruf

Simon Littlewood  
Retention – where are we now and what’s the future?

Q and A: Panel Discussion

---

NHS Commissioning Session - Thursday morning

Topics and speakers will be published nearer the time so that the session is topical

---

**Skill Clinics**

**Thursday**

11.00am Ormco – Clinical tips of extra radicular TADs with Chris Chang  
2.00pm Forestadent – 2D Lingual Orthodontics with Trevor Hodge

**Friday**

9.00am  
Align Technology – Placement of Invisalign attachments  
(suitable for orthodontic therapists)  
2.00pm  
TP Orthodontics – Class 2 correctors with James Jasper

**Saturday**

9.00am  
Align Technology - Intra-oral scanning with Itero  
(suitable for DCPs)  
9.00am  
Ormco – Customised appliance design with Insignia
