Programme and timings are subject to change if circumstances demand
Sir Michael Marmot is Professor of Epidemiology at University College London, and President of the World Medical Association. He has conducted over 40 years of research on health inequalities. He chairs the Commission on the Social Determinants of Health (CSDH) – a global commission of 24 leading health and development experts established by the United Nations (UN) General Assembly to make the case that action on the social determinants of health is one of the most effective ways to improve health and reduce health inequalities. 

He is also the principal investigator of several large-scale national and international research projects, including the Whitehall II study of British civil servants (1985 onwards), the Whitehall Study (1974–85), the National Survey of Health and Development (1946-1947 birth cohort; 2006-2013), and the British Household Panel Study (1991 onwards). His research focuses on how social and economic circumstances shape health and health inequalities. He is an internationally renowned social epidemiologist and health policy advisor. He has been recognized for his work with numerous awards, including the 2000 International流行病学 XL奖, the 2010 World Health Organization’s Older Persons in the Changing World: Towards Health and Equity Prize, and the 2011 World Federation of the National Academy of Sciences. He also holds several honorary professorships and is a member of the Academy of Medical Sciences. He served as the chair of the inaugural Commission on Social Determinants of Health (CSDH) in 2005 and is currently the director of the Institute of Health Equity. His research has been instrumental in shaping health policies and practices worldwide, and he is widely recognized as one of the leading figures in the field of social determinants of health.
COG March 2017 Speakers

Susan Cunningham

Susan Cunningham graduated from Leeds University in 1988. Her orthodontic training was undertaken at the Royal United Hospital in Bath, where she was also appointed Consultant in Paediatric Dentistry in 1991. Membership of Orthodontics in 1995 and PhD in 2000. She took a Senior Lectureship at the Eastman Dental Hospital in London in 1986, becoming Associate Professor of Orthodontics in 1994. She is currently Consultant Orthodontist at the Royal United Hospitals in Bath. Her main research interests are in the psychology of orthodontic treatment and in the development of dental anxiety. She has published over 75 peer reviewed articles and contributed to a number of specialist textbooks.

Trevor Hodge

Trevor qualified in dentistry in 1995 from Leeds University and was appointed a hospital consultant at Leeds Dental Institute in 2000. Since then he has consulted orthodontics at the Eastman Dental Hospital in London, the Royal United Hospital Bath and the Royal Hallamshire Hospital, Sheffield. His main areas of expertise are in the treatment of dentofacial deformity and the disorders of odontogenic andodontogenic origin. He has published several original research papers and contributed to a number of specialist textbooks.

Simon Littledew

Simon Littledew has been a Consultant Orthodontist at The Royal United Hospital Bath, UK since 2002 and Consultant Pathologist at Leeds Dental Institute. He was the founding Chairman of the Orthodontic Research Working Group in 2008 and is currently the Co-Chair of the National Orthodontic Trials Unit. The working group, which is part of the National Institute for Health Research (NIHR) Collaborations in Leadership and Management, was set up in 2007 to improve the quality of orthodontic research studies in the UK. It has published three research methodology guidelines since its inception in 2007.

Nicki Macmillan

Nicki Macmillan is a Consultant Orthodontist and Clinical Lead of the Department of Paediatric Dentistry at Great Ormond Street Hospital for Children. She helped establish the Department of Orthodontics at the Hospital as a specialist clinical unit. She has clinical and research interests in craniofacial growth and development, and has research interests in the orthodontic treatment of children with Down’s Syndrome.

Tony Ireland

Tony is a Professor of Orthodontics at the University of Bristol and Consultant Orthodontist at the Royal United Hospital in Bath. He has held a postgraduate training and education position at the Eastman Dental Hospital in London and has been Consultant Orthodontist at Great Ormond Street Hospital in London. Professor Ireland has a longstanding interest in orthodontic education and training. He is currently the Director of the MSc in Orthodontics at the University of Bristol and is an Honorary Consultant Orthodontist at the Royal United Hospital in Bath. He is a Fellow of the Royal College of Surgeons of England and has published over 100 peer reviewed articles. His main research interests include the effects of orthodontic treatment on craniofacial growth and development.

Kathy Kiley

Kathy Kiley graduated from Guy’s in 1981 and completed a Master’s degree at the University of Cambridge in 1990 and an MSc in Orthodontics at the Eastman Dental Hospital in London in 1994. She was awarded Consultant Honorary Senior Lecturer in Paediatric Dentistry at the Eastman in 1994 and is a member of the Specialist Register in the extraction treatment of dental anomalies. One of Kathy’s main interests is in orthodontics for cleft palate patients and in the restorative treatment of dental anomalies. She is currently Senior Consultant in Paediatric Dentistry to the Eastman Dental Hospital in London and is a member of the European Society of Paediatric Dentistry.

Jane Clarke

Jane Clarke graduated from the University of London in 1988. She worked as a hospital consultant at the Royal United Hospital in Bath until her appointment as Consultant Orthodontist at the Royal United Hospital in Bath in 2000. She was appointed Consultant in Paediatric Dentistry in 1991. Membership of Orthodontics in 1995 and PhD in 2000. She took a Senior Lectureship at the Eastman Dental Hospital in London in 1986, becoming Associate Professor of Orthodontics in 1994. She is currently Consultant Orthodontist at the Royal United Hospital Bath. Her main research interests are in the psychology of orthodontic treatment and in the development of dental anxiety. She has published several original research papers and contributed to a number of specialist textbooks.

Tony Ireland

Tony is a Professor of Orthodontics at the University of Bristol and Consultant Orthodontist at the Royal United Hospital in Bath. He has held a postgraduate training and education position at the Eastman Dental Hospital in London and has been Consultant Orthodontist at Great Ormond Street Hospital in London. Professor Ireland has a longstanding interest in orthodontic education and training. He is currently the Director of the MSc in Orthodontics at the University of Bristol and is an Honorary Consultant Orthodontist at the Royal United Hospital in Bath. He is a Fellow of the Royal College of Surgeons of England and has published over 100 peer reviewed articles. His main research interests include the effects of orthodontic treatment on craniofacial growth and development.

Kathy Kiley

Kathy Kiley graduated from Guy’s in 1981 and completed a Master’s degree at the University of Cambridge in 1990 and an MSc in Orthodontics at the Eastman Dental Hospital in London in 1994. She was awarded Consultant Honorary Senior Lecturer in Paediatric Dentistry at the Eastman in 1994 and is a member of the Specialist Register in the extraction treatment of dental anomalies. One of Kathy’s main interests is in orthodontics for cleft palate patients and in the restorative treatment of dental anomalies. She is currently Senior Consultant in Paediatric Dentistry to the Eastman Dental Hospital in London and is a member of the European Society of Paediatric Dentistry.

Jane Clarke

Jane Clarke graduated from the University of London in 1988. She worked as a hospital consultant at the Royal United Hospital in Bath until her appointment as Consultant Orthodontist at the Royal United Hospital in Bath in 2000. She was appointed Consultant in Paediatric Dentistry in 1991. Membership of Orthodontics in 1995 and PhD in 2000. She took a Senior Lectureship at the Eastman Dental Hospital in London in 1986, becoming Associate Professor of Orthodontics in 1994.
